2. Hazard(s) identification

Classification of the hazardous chemical

Physical hazards Not classified.

Health hazards Skin corrosion/irritation Category 2

Serious eye damage/eye irritation Category 2A
Sensitization, skin Category 1
Hazardous to the aquatic environment, acute Category 2

Environmental hazards Hazardous to the aquatic environment, acute

hazard

Hazardous to the aquatic environment, Category 2

Issue date: 08-December-2015

long-term hazard

Label elements, including precautionary statements

Hazard symbol(s)

Signal word

Exclamation Environment

mark Warning **Hazard Statement(s)** Causes skin irritation. Causes serious eye irritation. May cause an allergic skin reaction. Toxic to

aquatic life with long lasting effects.

Precautionary Statement(s)

Prevention Avoid breathing mist or vapour. Wash thoroughly after handling. Contaminated work clothing

should not be allowed out of the workplace. Wear protective gloves and eye/face protection. Avoid

release to the environment.

Response IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical

> advice/attention. Take off contaminated clothing and wash it before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Collect spillage.

Store away from incompatible materials. Storage

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards which do not result in classification

None known.

Supplemental information None.

3. Composition/information on ingredients

Mixture

Identity of chemical ingredients	CAS number and other unique identifiers	Concentration of ingredients
Propane, 2,2-bis[p-(2,3-epoxypropoxy)phenyl]-, polymers	25085-99-8	44 - 52
Bisphenol F epoxy resin	9003-36-5	9 - 18
Alkyl(C12-14) glycidyl ether	68609-97-2	6 - 10
Dialkylaminobenzoic ester	57834-33-0	0.8 - 2.4
Ethylene glycol	107-21-1	1 - 2
Bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate	41556-26-7	0.6 - 1.8
Methyl 1,2,2,6,6-pentamethyl-4-piperidyl sebacate	82919-37-7	0.1 - 0.95

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Description of necessary first aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of

eczema or other skin disorders: Seek medical attention and take along these instructions.

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if Eye contact

present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Rinse mouth. Get medical attention if symptoms occur. Ingestion

Rash. Irritant effects.

Personal protection for first-aid

responders

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Wash

contaminated clothing before reuse.

Symptoms caused by exposure

Medical attention and special

treatment

Provide general supportive measures and treat symptomatically.

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing

media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing

media

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from

the chemical

During fire, gases hazardous to health may be formed.

LATICRETE Spectralock Pro Premium Part B SDS Australia 917376 Version #: 03 Revision date: 09-April-2021 Issue date: 08-December-2015

Special protective equipment

and precautions for fire

fighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting

In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do equipment/instructions

so without risk.

Hazchem Code

37

General fire hazards This product is not flammable.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency

personnel

Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages

cannot be contained.

For emergency responders

Do not touch damaged containers or spilled material unless wearing appropriate protective

clothing.

Environmental precautions

Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground. Environmental manager must be informed of all releases.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Absorb in vermiculite, dry sand or earth

and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Other issues relating to spills and releases

Never return spills in original containers for re-use. For waste disposal, see Section 13 of the SDS. Clean up in accordance with all applicable regulations.

7. Handling and storage

Precautions for safe handling

Do not breathe mist or vapour. Do not get in eyes, on skin, on clothing. Persons susceptible for allergic reactions should not handle this product. Use with adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage. including any incompatibilities Keep container tightly closed. Store in a cool and well-ventilated place. Store away from incompatible materials (See Section 10).

8. Exposure controls and personal protection

Control parameters

Follow standard monitoring procedures.

Occupational exposure limits

Australia. National Workplace OELs (Workplace Exposure Standards for Airborne Contaminants, Appendix A)

Components	Туре	Value	
Ethylene glycol (CAS 107-21-1)	STEL	104 mg/m3	
,		40 ppm	
	TWA	10 mg/m3	
		20 ppm	

Australia. OELs. (Adopted National Exposure Standards for Atmospheric Contaminants in the Occupational **Environment)**

Components	Туре	Value	Form	
Ethylene glycol (CAS 107-21-1)	STEL	104 mg/m3	Vapour.	
		40 ppm	Vapour.	
	TWA	52 mg/m3	Vapour.	
		10 mg/m3	Particulate.	
		20 ppm	Vapour.

•		40 ppm	Vapour.
	TWA	52 mg/m3	Vapour.
		10 mg/m3	Particulate.
		20 ppm	Vapour.

Germany. DFG MAK List (advisory OELs). Commission for the Investigation of Health Hazards of Chemical Compounds in the Work Area (DFG)

Components	Туре	Value	Form
Ethylene glycol (CAS 107-21-1)	TWA	26 mg/m3	Vapor and aerosol.
,		10 ppm	Vapor and aerosol.

No biological exposure limits noted for the ingredient(s). **Biological limit values**

Exposure guidelines

Australia OELs: Skin designation

Ethylene glycol (CAS 107-21-1) Can be absorbed through the skin.

Appropriate engineering

controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ensure adequate ventilation, especially in confined areas. Provide eyewash station.

Individual protection measures, for example personal protective equipment (PPE)

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves. Other Wear appropriate chemical resistant clothing.

In case of insufficient ventilation, wear suitable respiratory equipment. Respiratory protection

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

Hygiene measures Always observe good personal hygiene measures, such as washing after handling the material

and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

9. Physical and chemical properties

Appearance

Liquid. Physical state **Form** Liquid. Colour White.

Not available. Odour **Odour threshold** Not available. pН Not available. 0 °C (32 °F) Melting point/freezing point Initial boiling point and boiling 100 °C (212 °F)

range

Non flammable. Flash point **Evaporation rate** Not applicable. Flammability (solid, gas) Not available.

Vapour pressure Not applicable. Vapour density Not applicable.

1.09 Relative density

Solubility(ies)

Soluble in water. Solubility (water) Not available. Partition coefficient

(n-octanol/water) **Auto-ignition temperature**

Not available. **Decomposition** temperature Not available. Not available.

10. Stability and reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport. Reactivity

Material is stable under normal conditions. **Chemical stability**

Possibility of hazardous

reactions

Masses of more than 1 pound of product plus an aliphatic amine will cause irreversible

polymerization with considerable heat build up.

Excessive heat. Contact with incompatible materials. Conditions to avoid

Incompatible materials Strong oxidising agents.

Hazardous decomposition

products

Viscosity

At thermal decomposition temperatures, carbon monoxide and carbon dioxide. Aldehydes.

11. Toxicological information

Information on possible routes of exposure

Inhalation No adverse effects due to inhalation are expected. Skin contact Irritating to skin. May cause an allergic skin reaction.

Eve contact Irritating to eyes.

May cause discomfort if swallowed. Ingestion

Symptoms related to exposure Rash. Irritant effects.

May cause discomfort if swallowed. **Acute toxicity**

Test results Components **Species**

Chronic effects Prolonged or repeated contact may cause drying, cracking, or irritation.

12. Ecological information

Ecotoxicity Toxic to aquatic life with long lasting effects.

Components **Species** Test results

Bisphenol F epoxy resin (CAS 9003-36-5)

Aquatic

Acute

Fish LC50 Leuciscus idus 5.7 mg/l, 96 hours

Ethylene glycol (CAS 107-21-1)

Aquatic

LC50 Fish Fathead minnow (Pimephales promelas) 8050 mg/l, 96 hours

Propane, 2,2-bis[p-(2,3-epoxypropoxy)phenyl]-, polymers (CAS 25085-99-8)

Aquatic

Acute

IC50 Algae 11 mg/l, 72 hours Algae Crustacea EC50 Daphnia 1.8 mg/l, 48 hours Fish LC50 Fish 1 - 10 mg/l

Persistence and degradability

No data is available on the degradability of this product.

Bioaccumulative potential

No data available for this product.

Partition coefficient n-octanol / water (log Kow)

Ethylene glycol (CAS 107-21-1) -1.36

Mobility in soil The product is soluble in water.

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation Other adverse effects

potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal methods Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow

this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches

with chemical or used container. Dispose of contents/container in accordance with

local/regional/national/international regulations.

Dispose of in accordance with local regulations. Empty containers or liners may retain some Residual waste

product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal.

Since emptied containers may retain product residue, follow label warnings even after container is

emptied.
